

FEAR THE JUNGLE

Aloha Kong Pearl

Modern environments require sometimes a little bit more entry angle into the pins. This is what the Aloha Kong Pearl is made for. The proven fast-revving KING Core creates a ton of backend while the polished Primeval Pearl cover gets the ball down the lane easily. This helps you when you are forced to get deep inside and need some extra push in backend motion.

Cover: Primeval Pearl Reactive

Finish: 2000 Grit Abralon + polish

Core: King

R.G.: 2.53 Diff.: 0.051 Int. Diff.: 0.019
